

# DIY TRAVEL LEGO BINDER FOR KIDS

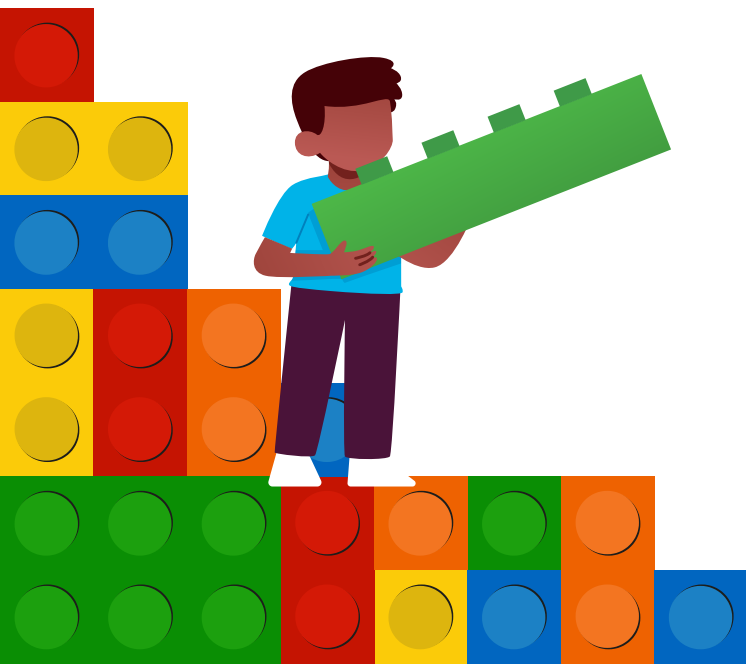

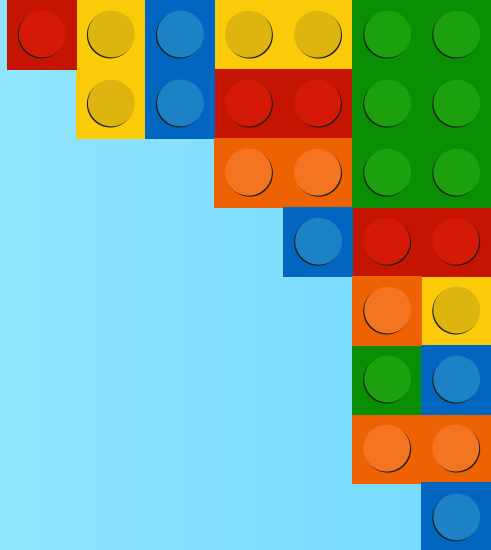

## Supplies

- 1-inch binder
- binder pencil case
- lego baseplate
- lego bricks/pieces
- utility knife
- double-sided mounting tape
- binder cover (attached)

## Instructions

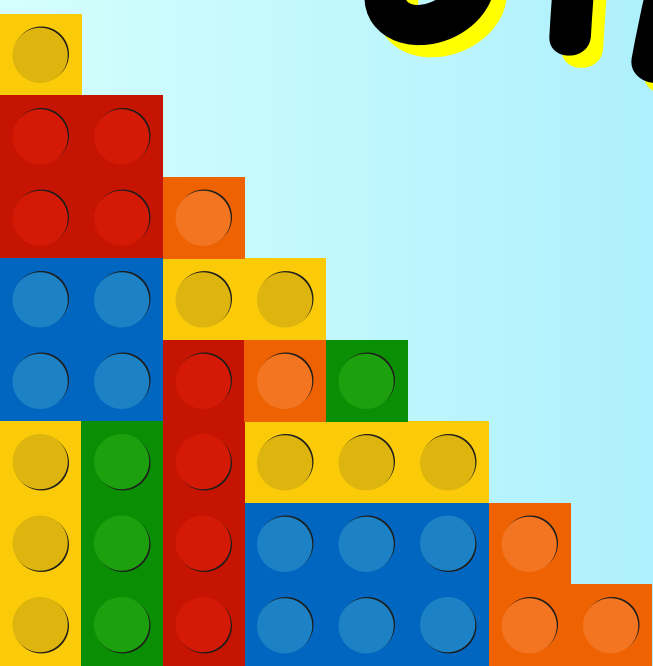

1. Measure the Lego baseplate against the inside of your binder
2. Use your utility knife to cut rows off the baseplate to size so they fit the inside cover of your binder
3. Take your double sided mounting tape and adhere pieces onto the back of your baseplate
4. Place the baseplate onto the inside cover of your binder
5. Snap your pencil case onto the 3 rings of the binder and fill with Lego bricks/pieces
6. Fun last step: Slide a personalized cover sheet into the plastic pocket on the front of the binder. Create your own or download the file below and encourage your child to write their name on the front!
